LE DÉBUT

Non-alcoholic wine-based beverages

The origin of these drinks lies in the village of Schlat, east of Stuttgart, where Manufaktur Jörg Geiger has been pioneering for more than thirty years. Inspired by three centuries of family history in making lightly alcoholic ciders, Jörg Geiger was one of the first to develop fully fledged non-alcoholic alternatives to wine. With care, the alcohol is removed from organic, vegan wines in-house via vacuum distillation. After that, the base is enriched with juices from old fruit varieties and refined with herbs, spices, and blossoms.

The award-winning Danish sommelier Jacob Kocemba began to develop new methods in 2011 to extract the different tea flavors at different temperatures. The teas are steeped at specific temperatures for several minutes. After that, a splash of organic lemon juice is added to ensure enough freshness.

LE DÉBUT

Coffee & Tea

COFFEES

For our coffee service, Le Début works together with Capriole in The Hague. We carefully chose to work with the Flores bean blend. Flores has the Climate Activator Certification and is Fairtrade certified. The coffee is also organically grown.

The pure chocolate flavors are characteristic of coffee from Peru. The coffee beans from Indonesia provide spicy flavors and nutty notes of almond.

TEAS & INFUSIONS

For our tea service, Le Début works together with Eilles Tee. They derive its qualities from the most renowned tea gardens in the world. Tea is grown in more than 40 countries - each region is characterized by its own climate, soil conditions, and centuries-old tradition.
